

RAMANUJAN FELLOWSHIPS

Funded by the **Simons Foundation**, this fellowship offers an opportunity for gifted early career researchers from low and middle-income countries to attend an INI programme for one to three months.

Ramanujan Fellows will receive:

- Accommodation
- £25 per diem
- Up to £1200 for travel to INI
- Additional award for people with caring responsibilities

Applications are open until the 15th of October for 2025 programmes

Applicants can apply to attend programmes taking place from **July 2024** through to **December 2025**:

- **Modern History of Mathematics (MHM)**
January to May 2025
- **Equivariant homotopy theory in context (EHT)**
January to June 2025
- **Representing, calibrating and leveraging prediction uncertainty from statistics to machine learning (RCL)**
May to August 2025
- **Operators, Graphs, Groups (OGG)**
May to August 2025
